SUMMARY

As a passionate problem solver, I am eager to embark on my journey as a Software Engineer. With a creative mindset and a strong technical foundation, I thrive in team-oriented environments. I possess a natural curiosity, constantly exploring and experimenting to enhance both my skills and the projects I work on. My commitment to improvement extends not only to myself but also to the collaborative efforts that drive success.

PROJECTS

Bark Buddies

- Designed and customized the user interface for Bark Buddies, a project aimed at connecting homeless dogs with potential owners, utilizing my skills in visualizing user experiences.
- Initiated and integrated innovative design concepts during a hackathon, contributing to the establishment of the project's foundation.
- Collaboratively developed both front-end and back-end elements, showcasing my versatility and ability to shape digital solutions for a meaningful cause.

Color Theory

- Designed and engineered Color Theory, a dynamic web application, using hex code visualization to facilitate color mixing and matching.
- Programmed and optimized the platform to generate random web-safe colors and predefined HTML colors, enhancing user experience.
- Assembled and maintained Color Theory, ensuring seamless operation and standardizing the presentation of color data for users.

Chat App

- Engineered a real-time chat application using ChatGPT, implementing special commands and an emoji generator to enhance user interaction.
- Programmed the chat application, leveraging ChatGPT's boilerplate code and integrating it seamlessly with NodeJS and CSS.
- Optimized the chat application's performance and functionality, ensuring smooth operation and user-friendly experience.

PDF tools

- Designed and engineered PDF_tools Web App, utilizing Node.js for client-side interactions and Express for server-side functionalities to optimize PDF modification.
- Programmed and maintained the PDF_tools application, ensuring smooth operation while streamlining user-customizable PDF modifications.
- Upgraded and standardized PDF_tools for enhanced functionality, solving user-specific PDF needs efficiently and effectively.

EXPERIENCE

WordPress Intern

NJ Design Park

July 2023 -September 2023

- Designed visually captivating websites using the Kadence theme in WordPress, ensuring optimal performance and timely delivery.
- Engineered engaging user experiences, optimizing site responsiveness and functionality.
- Streamlined website development processes, enhancing efficiency in project delivery at NJ DESIGN PARK.

EDUCATION

Bachelor of Technology in Electronics and Telecommunication Engineering

Bhilai Institute of Technology• Durg• 2024• 8.05

Higher Secondary School Certificate[CBSE]

BSP Senior Secondary School, Sector 10• Bhilai• 2020• 8.60

Secondary School Certificate[CBSE]

BSP Senior Secondary School, Sector 7• Bhilai• 2018• 8.47

INVOLVEMENT

Head of Logistics and Hospitality

Bhilai Institute of Technology• TEDxBITD• February 2023 - August 2023

- Administered TEDxBITD's speaker hospitality and logistics, ensuring a seamless event experience, resulting in zero speaker complaints.
- Led a proficient team in managing speaker accommodations and schedules, achieving impeccable event coordination.
- Masterfully organized and executed speaker stay and logistics, contributing to the event's overall success.

Head of Graphic Design

Bhilai Institute of Technology• UNSTOP Igniters Club BITD (formerly D2C)• March 2022 - October 2022

- Led a team of designers to create customized graphics and videos for UNSTOP, enhancing student engagement and awareness.
- Collaborated across departments to integrate design concepts, resulting in more relevant and impactful content.
- Initiated and founded innovative design approaches to revitalize UNSTOP's visual identity, boosting its reach and influence among students.

SKILLS

Data structures and Algorithms: C++, JavaScript

Back-end Development: NodeJS, Express, Firebase, MySQL

Front-end Development: React, HTML, CSS, Tailwind CSS, WordPress, Bootstrap

Graphic Designer: Photoshop, Figma, Adobe Illustrator

Other: ChatGPT, GitHub, Excel
